

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

90780-6

Date of Issuance:

7/16/15

NOTICE OF PESTICIDE:

☒ Registration  
☐ Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

TC MOUSE KILLER 121

Name and Address of Registrant (include ZIP Code):

The Scotts Company  
d/b/a Tomcat Brands  
P.O. Box 190  
Marysville, OH 43040

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, "EPA Reg. No. 90780-6."

Signature of Approving Official:

Venus Eagle, Product Manager 01  
Invertebrate-Vertebrate Branch 3, Registration Division (7505P)

Date:

7/16/15

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/17/2015
- Alternate CSF A dated 06/17/2015

If you have any questions, please contact Dr. William W. Jacobs by phone at 703-305-6406, or via email at [jacobs.bill@epa.gov](mailto:jacobs.bill@epa.gov).

### **PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION:** Bait contents harmful if swallowed. Keep away from children, domestic animals and pets. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**USER SAFETY REQUIREMENTS:** As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet.

### **FIRST AID [icon]**

#### **HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE**

##### **IF SWALLOWED:**

- Call a poison control center, doctor, or **1-800-225-2883** immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

##### **IF ON SKIN:**

- Wash with plenty of soap and water.

### **TREATMENT FOR PET POISONING**

If an animal eats this bait, call a veterinarian at once.

#### **NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

### **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish, birds and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water.

### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

#### **USE RESTRICTIONS:**

This bait station may be used in areas accessible to children and pets, consistent with all use restrictions and other requirements indicated on this label. Do not apply further than 50 feet from home or building.

For control only of house mice. [TC Mouse Killer 121] [This product/This bait station] must be used in and around buildings consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food.

***[Note to PM: "SELECTION OF TREATMENT AREAS", "APPLICATION DIRECTION", "LOADING INTO BAIT STATION" sections of label will be treated in one of the fashions shown below.***

[Option 1]

**SELECTION OF TREATMENT AREAS [Indoors & Outdoors]:** Determine areas where house mice will most likely find and consume the bait. Generally, these areas are beside burrows, along walls, by gnawed openings, in corners and concealed places.

#### **APPLICATION DIRECTIONS:**

Place the bait station [horizontally or vertically] at point of highest activity beside burrows, along a wall, or in corners where signs of house mice have been seen. If additional units are to be used, place bait at 8- to 12-foot intervals. [Stations can be used horizontally or vertically.] Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are fresh signs of house mouse activity in infested areas. To monitor for replacement, view bait via see-through lid. While wearing gloves, remove bait station if bait has been consumed or contaminated. Replace station with a new one if house mouse activity continues at that location. [Note: Mice will eat a small amount of bait and leave the station. You likely will not find a dead mouse in the station.] / [Note: Mice will eat a small amount of bait and cease feeding after consuming a toxic dose. They then leave the station. You likely will not find a dead mouse in the station.] [Mice cease feeding after consuming a toxic dose, so there may not be large amounts of bait missing from the station. This does not mean that the product is not working.]

**Follow-up:** Wearing gloves, collect and properly dispose of emptied bait stations or carcasses. [Carcasses should be placed in an outdoor garbage can.] To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

[Option 2]

#### APPLICATION DIRECTIONS
